

Name of the file	How does the sound start?	Time frame (Video)	Length	00:00 - 00:30	00:30 - 01:00	01:00 - 01:30	01:30 - 02:00	02:00 - 02:30	02:30 - 03:00	03:00 - 03:30	03:30 - 04:00	04:00 - 04:30	04:30 - 05:00	05:00 - 5:30	05:30 - 06:00	06:00 - 6:30	06:30 - 07:00
Rain1	Default (Idle Mode)	00:00 - 00:10	Loop on a 30sec audio														
Rain2	Default	00:00 - 00:10 06:32 - 06:45	Loop on a 30sec audio														
DoorOpen	Click on door	00:08 - 00:09 06:38 - 06:39	1 sec.														
SoniaCaffelnside	After entering the Café (automatic)	00:10 - 06:32	Loop on a 03:51 audio	This ambient sound goes to 0% volume when we broke the object and progressively goes back up with every shard place back on the object													
Sonia Welcome	After entering the Café (automatic)	00:10 - 00:19	9 sec.														
Drinking	Click on the mug	00:22 - 00:24	2 sec.														
Smash	Mug hitting the amphora	00:25 - 00:26	1 sec.														
GlassBreak	Mug hitting the amphora	00:25 - 00:26	1 sec.														
Sonia Broken	Mug hitting the amphora	00:25 - 00:28	3 sec.														
Rewind	Mug hitting the amphora	00:25 - 00:28	3 sec.														
Tap	Click on Shard	00:36 - 0:37	1 sec.		repeats often in the video												
SnapDown	Drag a shard in the right place	00:54 - 00:55 01:48 - 01:49 02:47 - 02:48 03:57 - 03:58 05:03 - 05:04 06:00 - 06:01 06:22 - 06:23	1 sec.														
Barry The Frog	Click on object	00:59 - 01:24	25 sec.														
Cola Bottle	Click on object	01:58 - 02:44	46 sec.														
Crossiant Plate	Click on object	03:12 - 03:54	42 sec.														
St Patrick Day	Click on object	04:20 - 05:00	40 sec.														
Crossword Pencil	Click on object	05:09 - 05:55	46 sec.														
Gnome	Click on object	04:01 - ?	?														
Train	Click on object	02:52	?														
Elephant	Click on object	03:05 - ?	?														
Sonia Post-it	Click on object	06:07 - 06:18	11 sec.														
Sonia Bye	Click on receipt	06:32 -06:37	5 sec.														

SOUNDS TO KEEP:

- Rain1 + Rain2 *Ideally already playing on the idle screen as a subtle ambient → Possible?*
- DoorOpen *Used for the door opening at the beginning and closing at the end*
- SoniaCaffelnside *Ambient background sound for the café interior*
- Drinking *Sip sound when zooming into the coffee mug*
- GlassBreak *Yellow amphora shatters*
- Rewind *Going back in time*
- FR-Stories *French voice recordings featuring Sonia and five customers*

SOUNDS TO RE(DO):

Existing sounds that need to be improved:

- Smash *Sound of the coffee mug hitting the amphora → CHANGE: Make it sound more realistic*
- SnapDown *Shards snapping back into the right position → CHANGE: Replace it with a sound that better matches the interaction*
- Tap *Invalid Interaction when the user clicks a shard instead of dragging and dropping it → CHANGE: Make it feel more like an error or failed action, clearly communicating that the interaction is incorrect*

New sounds to create and test:

- “ID Card” Objects (objects without voice narration) *Create a short, distinctive sound effect for each object to make them feel more alive. → First, create sounds for these three objects as soon as possible so we can test them in Unity: Gnome, Train, Elephant → Based on this, we'll decide whether it's worth creating unique sound effects for all remaining ID card objects.*
